

NEHAL MAHENDRA RANE

Java Backend Engineer | Microservices | Cloud | DevSecOps | Generative AI / LLMOps

Pune, Maharashtra | nehalrane9.7@gmail.com | (+91) 9420883977 | GitHub | LinkedIn

SUMMARY

Java Backend Engineer at Cognizant, working with **ING Bank's Core Banking team** as a Junior Software Engineer with DevOps responsibilities. Contributed to a **50+ service Spring Boot platform** on Azure and personally designed, developed and delivered **2+ services through production**. Strong foundation in backend engineering, CI/CD, observability and event-driven systems, with measurable improvements in **latency, incident detection and release efficiency**.

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, SQL, HTML, CSS, Shell Scripting

Frameworks and Libraries: Spring Framework, Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Spring Cloud, Spring AOP

DevOps & Data Stack: Azure DevOps, CI/CD Pipelines, Git, Docker, Kubernetes, Kafka, Avro, MySQL, Schema Design

Monitoring & Security: Grafana, Prometheus, ELK Stack (Elasticsearch, Logstash, Kibana), Checkmarx, SSL/TLS, OAuth 2.0, JWT, SDLC

Technologies & Tools: RESTful APIs, Microservices, Swagger, JUnit, JMeter, Multithreading, Design Patterns, Code Review, Agile

Generative AI & LLMOps: LLMs, Anthropic Claude, Prompt Engineering, RAG, Vector Databases

EXPERIENCE

Cognizant Technology Solutions | Junior Software Engineer

Sep 2025 – Present

Pune, Maharashtra

Core Banking – ING Bank – Dutch Multinational Bank

- Contributed to a **50+ service Spring Boot platform** on Microsoft Azure for ING Bank's Core Banking team, supporting REST APIs and event-driven workloads with Kafka and Cassandra.
- Designed, developed and delivered 2+ services through production**, owning API development, business logic, testing, CI/CD integration and production readiness.
- Built and optimized caching components supporting **30M+ requests/day**, reducing average response latency by **25%** for critical banking workflows.
- Implemented AOP-based logging, tracing and metrics, reducing production **mean-time-to-detect (MTTD)** by **50%**.
- Contributed to Azure DevOps CI/CD improvements and automated security scanning, helping reduce **release cycle time by 80%**.
- Supported code reviews, dependency upgrades, defect resolution, security remediation and production troubleshooting across services.

Cognizant Technology Solutions | Intern

Apr 2025 – Aug 2025

Pune, Maharashtra

Java Full Stack Intern

- Completed Java Full Stack training (Java, Spring Boot, React JS, MySQL, AWS); built REST APIs, integrated React UI, and deployed apps on AWS EC2 in Agile using Git.
- Developed responsive UI with React + Bootstrap; implemented JPA/Hibernate service layers, custom queries, exception handling, and followed Git best practices.

PROJECTS

QuickCart – E-commerce Platform

Python, Tkinter, Firebase, JWT/OAuth

- Built an end-to-end e-commerce application supporting **product catalog, cart and order workflows**, with a Tkinter frontend and Firebase backend.
- Implemented JWT/OAuth authentication, caching and real-time UI updates to improve responsiveness and user experience.

HealthPod – IoT Healthcare Monitoring

ESP8266, MQTT, ThingSpeak, Azure AI, Flutter

- Developed an IoT monitoring solution using ESP8266, biometric sensors and MQTT for real-time data transmission.
- Integrated ThingSpeak and Azure AI for cloud analytics, with a Flutter app enabling remote monitoring for caregivers.

EDUCATION

Savitribai Phule Pune University

Dec 2021 – Jul 2025

GPA: 8.8 / 10

Bachelor of Computer Engineering, Honours in Cybersecurity

CERTIFICATIONS & ACHIEVEMENTS

- Claude Certified Architect – Foundations
- AWS Partner: Generative AI Technical - Training
- Qualcomm: AI Upskilling Certificate
- 2nd Place** – International ROC RoboAnalyzer Competition, IIT Delhi (2024–25)
